

Allen Creek Preschool

Covid-19 Response 2022

Goal

Our main priority is keeping kids and staff in school as safely as possible. This is a team effort!

Building Safety Precautions

Our HVAC system is excellent and the fan is consistently running to circulate airflow

We leave doors and windows open as much as possible

We have air purifiers in each room

Frequent handwashing

We keep the building nice and clean!

Covid-19 Vaccines Work!

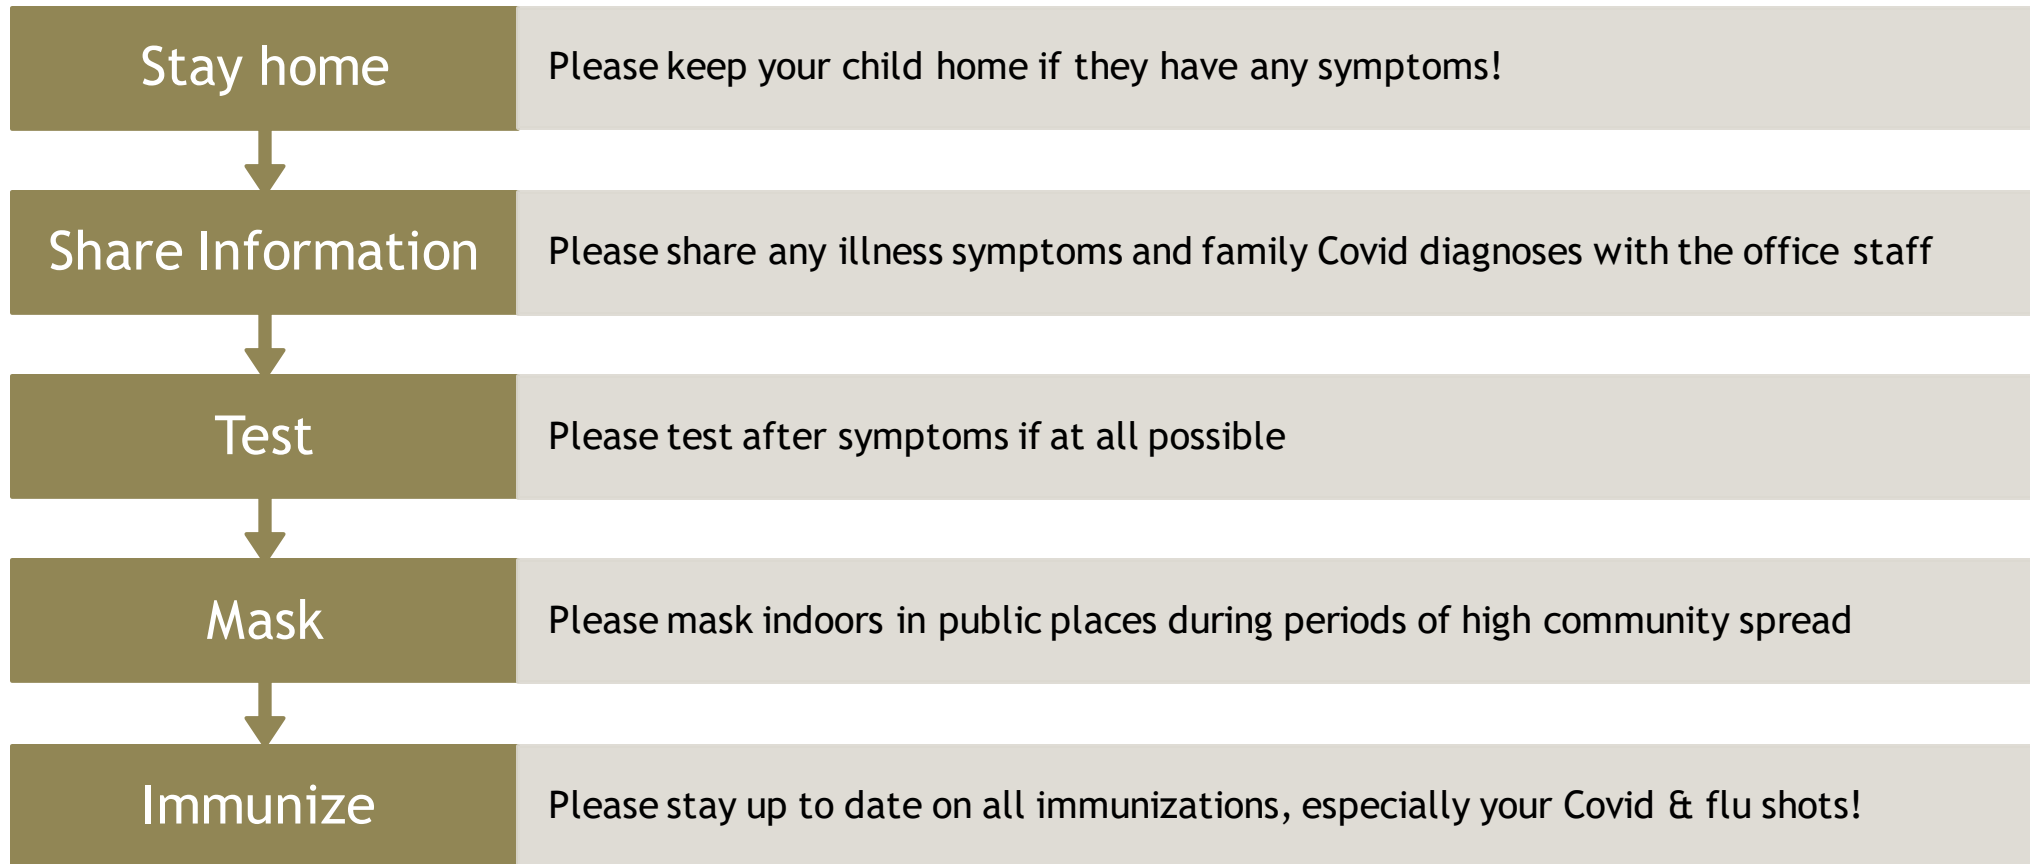

- ▶ 100% of Allen Creek staff are fully vaccinated
- ▶ We expect that all family members eligible for the vaccine will get it, and we strongly encourage staying up-to-date on all vaccinations, including flu

Masking

- ▶ We know that masking provides a high level of individual protection. This year masking will be tied to levels of community spread, with masking
 - ▶ *Strongly recommended* when community levels are high
 - ▶ *Encouraged* when community levels are medium
 - ▶ *Welcomed* when community levels are low and while outdoors
- ▶ Please let your teachers know your mask choice for your child.
- ▶ We have great confidence that with your help and ours, the children will be able to navigate this changing landscape

Responsibilities

We control what we can

A successful school year
requires great communication
on all sides. We can't wait to
get started!
